

Helping primes meet participation goals while keeping trucks and materials moving.

COMPANY SNAPSHOT

- Tennessee-based, woman-owned trucking and material supply company serving Middle Tennessee
- Dump truck hauling, aggregate delivery, and subcontractor fleet support for public and private construction projects
- Supports prime contractors with certified participation, reliable hauling capacity, and responsive jobsite coordination
- Fleet includes tri-axle and quad-axle dump trucks, all GPS-tracked with real-time dispatch capability
- Asset-based operation with access to additional subcontracted trucks for scalable capacity

CORE SERVICES

- Dump truck hauling: stone, gravel, sand, asphalt millings, riprap, topsoil, mulch, and bulk materials
- Aggregate sourcing, sales, and direct delivery from quarry to jobsite
- Project hauling support for roadwork, site development, grading, excavation, and infrastructure
- Subcontractor dump truck management for surge capacity and high-volume projects
- Material logistics coordination for public works and commercial construction
- Disposal hauling of approved, non-hazardous construction materials to landfill and recycling facilities

BEST-FIT PARTNERS

- Heavy civil and roadway contractors
- Sitework and grading contractors
- Utility and infrastructure contractors
- Asphalt and paving contractors
- General contractors needing certified trucking and material support

SERVICE AREA

- Middle Tennessee — Nashville, Murfreesboro, Franklin, Brentwood, Lebanon, Mt. Juliet, Smyrna / La Vergne, and Hendersonville / Gallatin (Davidson, Rutherford, Williamson, Wilson, and Sumner counties)

WHY PRIMES USE HAULPRO

- Certified firm that helps primes meet DBE and small business participation goals on every bid
- Asset-based fleet plus qualified subcontractor trucks for scalable capacity on any project size
- Experienced in TDOT and public-project hauling requirements and specifications
- GPS-tracked fleet with dispatch coordination for real-time visibility and dependable communication
- Responsive, safety-focused, and built to support schedule-sensitive civil and infrastructure work

DIFFERENTIATORS

- Certified participation value without sacrificing field execution or reliability
- Self-performs with owned equipment and supplements with qualified subcontractor capacity
- Familiar with contractor-driven hauling demands, dispatch changes, and production schedules
- Strong alignment with roadway, civil, utility, and sitework prime contractors
- One point of contact for hauling, material supply, and fleet coordination

PROJECT SUPPORT

- Road and highway construction hauling
- Quarry-to-jobsite aggregate delivery
- Site development and civil earthwork transport
- Municipal, county, and TDOT project support
- Commercial and industrial bulk material logistics
